

Company

TimeTECH understands the desire to partner with a vendor who has extensive experience implementing similar solutions. At TimeTECH, all we provide is time and labour management systems so we have the knowledge, capability, and most importantly, a track record of successfully implementing one of the world's best time and attendance / automated workforce management solutions.

Our Mission:

To provide comprehensive, integrated tools for measurable management of the entire HR life-cycle, utilizing cutting edge technology and industry best practices. Our Vision: To be an international corporation, preferred by and recognized as a leader, by both customers and employees, providing computerized HR management & auditing solutions. To be an industry leader in excellence and professionalism, providing superior service to customers and satisfying and enriching work environment to employees.

Company History:

Canada was the first North American base for Lavia TimeTECH, which was founded in 1983. Software from TimeTECH now has a user base of over 8,000 sites worldwide, over 1000 sites in Canada. TimeKeeper is installed in countries such as USA, Canada, United Kingdom, Holland, Belgium, Romania, South Africa, Russia, and Israel. The company's Mississauga office provides full technical support to local users. A team of 35 engineers, programmers and systems analysts builds upon the company's reputation for innovation. TimeTECH's North American headquarters is located in Mississauga just up the street from Toronto's Pearson International Airport. TimeTECH's corporate headquarters is well positioned to service all of North America's operations, providing leading edge time and attendance / workforce management solutions.
